

# TRICKY PHISHING TEMPLATES

**August Edition!**

**WIZER**

# Payment Pause

**From: Apple Pay**

**Subject: Payments Deactivated**

Managing services is one of our online responsibilities, would you ignore it?

## Payments Deactivated

Unusual activity has been detected. Please review your recent account activity.

**Review**

# Device Dilemma

**From: Microsoft**

**Subject: Your device is non-compliant**

---

Would you be curious  
about which settings  
had changed?

## Device Non-compliant

Recent settings changes have resulted in your device being non-compliant, so services will be restricted.

# Twisting the Fax

**From: Voicemail Office**

**Subject: A fax has been sent to you**

---

**You have a fax!**

You can view it in your browser at the link below.  
Digital files are only kept for 24 hours.

[View Fax](#)

Fax\_Verified\_Sender\_0.3MB

Do you pay attention to the little details? Do they add to the authenticity, or detract?

# Crafty Catchup

**From: Colleague**

**Subject: Notes from meeting you missed**

---

Please find attached notes from the meeting you missed. If you've any questions about the points raised, please do reach out.

Thanks!

**Meeting\_notes.docx**

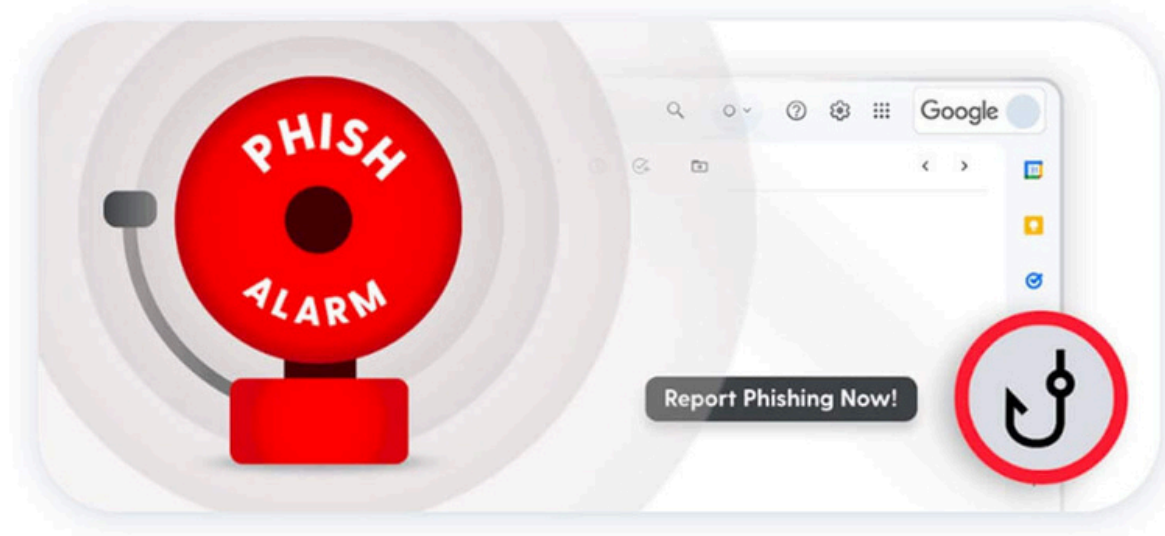

Work life can move fast and expect you to catch up... would you open this on auto-pilot?

# Reporting Drill

Such an important email to send!  
And it's not pretending to be  
someone else

**From: Wizer**

**Subject: Mandatory: Phish Reporting Drill!**

**Report this email now using  
the 'report phishing' button**

Reporting a suspicious email is like pulling the fire alarm;  
it lets our security team extinguish the threat  
before it spreads.
