

### IF IT'S TOO GOOD TO BE TRUE IT PROBABLY IS

Be aware of unrealistic discounts or coupons, many of them are scams.

### AVOID BUYING FROM SITES YOU DON'T KNOW

Purchasing from known sites reduces the risk of being scammed.

### USE EXTRA CAUTION WITH QR CODES

In public, criminals can place their own QR sticker over a legitimate one to send you to a fake site. Use a QR Scanner that does a Link Preview to verify the URL before continuing. Or avoid QR codes altogether.

### DON'T USE FREE WIFI TO MAKE PURCHASES

Free WiFi has little security making it easy for criminals to steal your data. Instead, use mobile data or a VPN.

# VERIFY YOU'RE ON THE CORRECT SHOPPING CART PAGE

You may be on a fake checkout page that looks exactly like the official one so do a quick look to check.

#### PAY WITH A CREDIT CARD

You may be paid back if you quickly report fraudulent transactions. Avoid using a debit card.

### OR EVEN BETTER PAY WITH A GIFT CARD

Gift Cards are not tied to your bank account and have a limited amount. Or consider using temporary credit cards.

# WATCH OUT FOR MESSAGES ABOUT "SHIPPING ISSUES"

Don't click on links in the message.
Instead, manually enter the official site
URL to check your account notifications
of any issues.

### AVOID POSTING ONLINE WHAT YOU PURCHASED

Scammers may scam you by following up with you as if they were the seller or brand.

### NOT SURE ABOUT A SITE/LINK?

Run the URL through VirusTotal.com to check if there's any known issues with it.

### RECEIVED A GIFT CARD? MAKE SURE IT'S LEGIT

If someone sent you a virtual gift card don't click the link. Instead, stop and verify it's legit by thanking the person who gave it you.

FINALLY...

#### Have fun!

Don't let cyber criminals take the fun away from shopping.
